

Liability Release Form for AHA / CPR Courses

Today's Date:

Student's Name:

Date of the class the student is enrolled for:

The course for which you are enrolled may include physical strain, possibility of cross-infection, and emotional stress. If your physician has recommended that you avoid strenuous activity or limit your activity in any way, you need to realize that CPR is hard work! This is true both in practicing on the manikin and doing CPR for a cardiac arrest victim.

If you have a medical or heart condition that may be aggravated by this course, you should consult your physician and ask his/her advice as to whether you should participate in a CPR course.

If you have reservations about being able to perform CPR on a cardiac arrest victim, you should consider this before beginning the course.

If you have recently had any type of infectious disease, including upper respiratory infection or open sores on your mouth or hands, it is imperative to defer manikin practice until you are well.

I, the undersigned, have read and understand the above liability statement for this class, and still wish to participate in this course. I will not hold Respond Right, LLC or the instructor(s) responsible for any physical strain, cross-infection, and/or emotional stress which may occur as a result of participating in this course.
